**LED PANEL LIGHTING
SYSTEM by TANZI**

YOUR INTERIOR IN A BETTER LIGHT

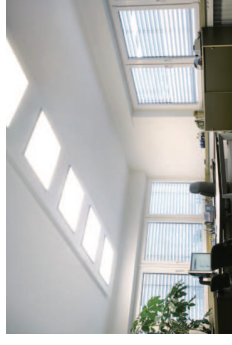

- high comfort of work thanks to improved lighting conditions,
- brightness level regulation and, in consequence, regulation of power consumption (more energy savings, even to 80 %)

in a modern way and gain more prestige for your company.

Recommended to use in interiors: houses, shops, hotels, offices, hospitals, schools etc.

Immediately after turn on reaches its full brightness flickering like fluorescent lamps
Very long working life
Environment friendly.

situated:

or chandeliers,

t for pictures

Remote control

- Level of brightness can be smoothly adjusted by a remote control.
- One remote control operates with a group of panels.
- On/off timer.
